FEATURES & BENEFITS

- ü Synchronise desktop records with handheld for use/updating in the paddock
- ü Input records for machinery, personnel, livestock and chemicals
- ü Plan and record jobs and farming operations
- ü View reports from preloaded or custom templates
- ü Use templates to quickly reassign applications to multiple paddocks

Combined With Site Mate

- ü GPS traceability with paddock records, such as time and date stamps
- ü Personnel, equipment and product use logged
- ü Coverage map tied to paddock record data
