| <b>CF GPS with External Antennae</b>   | <b>HP iPAQ Pocket PC</b>   | <b>RAM Mount with Vehicle Suction Cup &amp; Arm</b>                                 | <b>Otterbox Mounting Kit</b>   |

## FEATURES & BENEFITS

- ü Maps wet holes, weed and pest infestations, and any other areas of interest
- ü Logs the locations of soil samples and other important points in the field
- ü Allows you to offset logged paths and boundaries
- ü Easy to use zoom features for zooming in on important areas of your maps
- ü Works in Metric or Imperial measurements
- ü Utilizes **any GPS** receiver outputting NMEA0183
- ü "Data" tab used to display all information being output by your GPS receiver
- ü Displays distances of mapped paths for determining lengths of tile drainage
- ü Instantly displays sizes of mapped areas such as paddock boundaries and weed areas
